

MicroSearch® Cable Management System

For Standard and Enhanced Modes

MicroSearch® Cable Management System (enhanced mode with five cable reels pictured here)

Effective, easy-to-use storage and management system for MicroSearch cables

MicroSearch® is a one-of-a kind security inspection system. It detects unauthorized individuals hiding in vehicles or containers by sensing the vibrations caused by the human heartbeat. MicroSearch is ideal for border crossings, maritime ports and portal/entries to any highly valued facility as well as correctional institutions. Critical buildings and assets, including embassies and federal, military and civilian buildings, will benefit from the increased security that MicroSearch provides.

The MicroSearch® Cable Management System offers a durable, protective and economic solution for cabling.

Cable Reel Features

- Ideal for indoor/outdoor use
- Retractable
- Slip-ring assembly
- Heavy steel construction
- Powder coat finish
- Cables pre-assembled to reel

Enclosure Features

- Ideal for indoor/outdoor use
- NEMA 4 and 12 rated
- Heavy steel construction
- Powder coat finish
- Storage area for electronics box and sensors
